- 

## Welcome to Wired4Impact,

I am looking to meeting you and discovering the gold hidden inside of you! Together, we will unpack secrets to understanding ourselves and each other better and we will find clues to what will truly ignite your greatest potential.

To serve you well in your upcoming workshop, it will be necessary to give some thought to how you are wired. The following seven pages of evaluation will help us do that. Here are some tips:

- 1) Be as honest as possible, even if it is something you do not want to admit. (You do not have to share these test answers with anyone.) Try not to land too often on 3 but be decisive which way of centre you lean.
- 2) Give yourself at least an hour to complete these pages.
- 3) For each checkmark in the column, give yourself the score value assigned at the top of the column. Example: Every answer in the ALWAYS column will get 5 points, USUALLY = 3 points etc.
- 4) Compile and give yourself a total score out of 125 for each page.
- 5) Once tests are completed, plot the results on the evaluation summary and determine your 3 highest scores.
- 6) Read through all the descriptions, making notes on the ones that fall in your TOP 3.
- 7) Be sure to take note of any questions you have.

It's time to unleash the gold inside of you and discover how you are wired for impact!

See you soon,

Nicki Straza
